## **Message from the Executive Director, Deferred Compensation**

As the Massachusetts Deferred Compensation SMART Plan continues our campaign to educate participants on the critical role asset allocation plays in portfolio performance, I am pleased to announce that as of June 1, 2012 we moved to a "Plain Label" branding of the Plan's investment options.

This initiative helps focus attention on each fund's investment strategy when constructing asset allocations that meet individual risk appetites. It is important to note that this initiative is a *re-branding*; all of the underlying investment options will remain the same. Participants may view each fund's underlying manager(s) via our Plan website, quarterly statements and fund overviews.

We are committed to helping all of our participants succeed in reaching their retirement goals. Constructing a diversified portfolio using an asset allocation strategy that balances a participant's long-term savings goals is a critical first step on that journey.

**David Lynch, Executive Director**

## SMART Plan Enhancement: Plain Label Branding

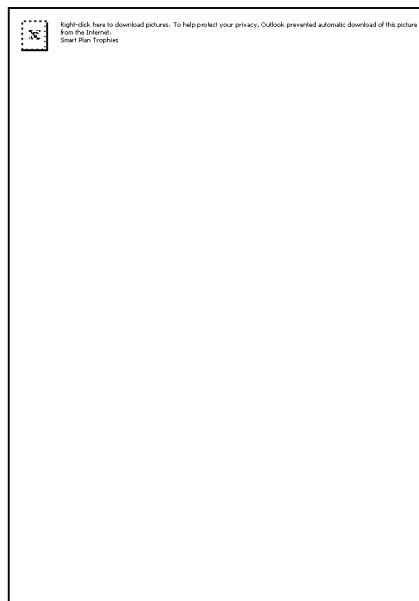

**Effective June 1, 2012,** the SMART Plan moved to a "Plain Label" branding for all investment options. The Plan assigned customized fund names to all SMART Plan investment options that reflect each fund's specific investment strategy. Studies have shown that up to 90% of a participant's portfolio return is directly related to asset allocation. Having the right mix of investment options across stocks, bonds and cash equivalents can have a significant impact on a portfolio's return.

Our "Plain Label" initiative helps participants focus on each fund's investment strategy. By focusing attention on the investment strategy of the fund options, participants will be better equipped to design asset allocation strategies to meet long-term investment goals given individual risk tolerances.

For more information, visit the DC website [www.mass-smart.com](http://www.mass-smart.com) to access and read current information about the SMART Plan enhancement. Additionally, SMART Plan representatives are available at (877) 457-1900 to answer any additional questions you may have regarding this initiative.
